**DETAILED ACTION**

***Response to Amendment***

1. Amendment filed September 25, 2008 has been entered.
2. Applicant's arguments filed September 25, 2008, have been fully considered but they are not found persuasive.
3. Claims 1-6 are examined below. Claims 7-10 are withdrawn.

***Claim Objections***

4. Claim 1 is objected to because of the following informalities: Claim 1, line 4, recite "a at least" which appears to be typographical error. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. New matter rejection.

Claims 1-5 recite or encompass the claim limitation "wherein said pause is longer than any time interval between said electric pulses in said first plurality of pulses and said second plurality of pulses" which is new matter not disclosed in the specification. The specification on page 4 provide support for a narrower description but not for the generic claim limitation.

Claims 1-6 recite or encompass the claim limitation "produced by one or more electrodes disposed within said sample well" which is new matter not disclosed in the specification. The specification does not disclose the generic limitation.

6. No claims are allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1646

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
